Whitepaper

SHIBABUSD

The is an ambitious project which will be built on great community base, it is not a just another Meme token, it will be used as governance token of ShibaBUSD.

The ShibaBUSD aims to be the most rewardings token. We want to build an ecosystem that gives true value for the token with partnership, P2E Game and a animation show.

TOKENOMICS

ShibaBUSD is the step forward in yield-generating contracts on the Binance Smart Chain (BSC); you receive rewards distributed in BUSD-Pegged rather than token reflections and the contract employs a static reward ADACash's Tokenomics:

• Token supply of 100,000,000 ShibaBUSD

• 20% Buy and Sale Tax*:

- 18% ADA is redistributed among holders

- 2% is used to increase the liquidity pool.

You must hold 50$ worth of ShibaBUSD to trigger the rewards
